

LARGE CERAMIC SLABS

IMAGINE THE POSSIBILITIES

A Bright and Open Space

You have endless possibilities to customize it according to your desires. Yet you are looking for something unique – something that reflects your taste and your vision of the ideal space for living or working.

This is exactly the kind of ceramic slabs that are created in Italy at a best-in-class factory within its niche, under the Keralini brand. The brand produces large-format slabs specifically for you – a discerning client seeking new, modern materials for interior finishes and for creating refined yet practical solutions.

Unique and Sophisticated

Keralini stands out with its creative approach and unconventional decor execution. We create our products for those who dare to realize their bold and exclusive visions.

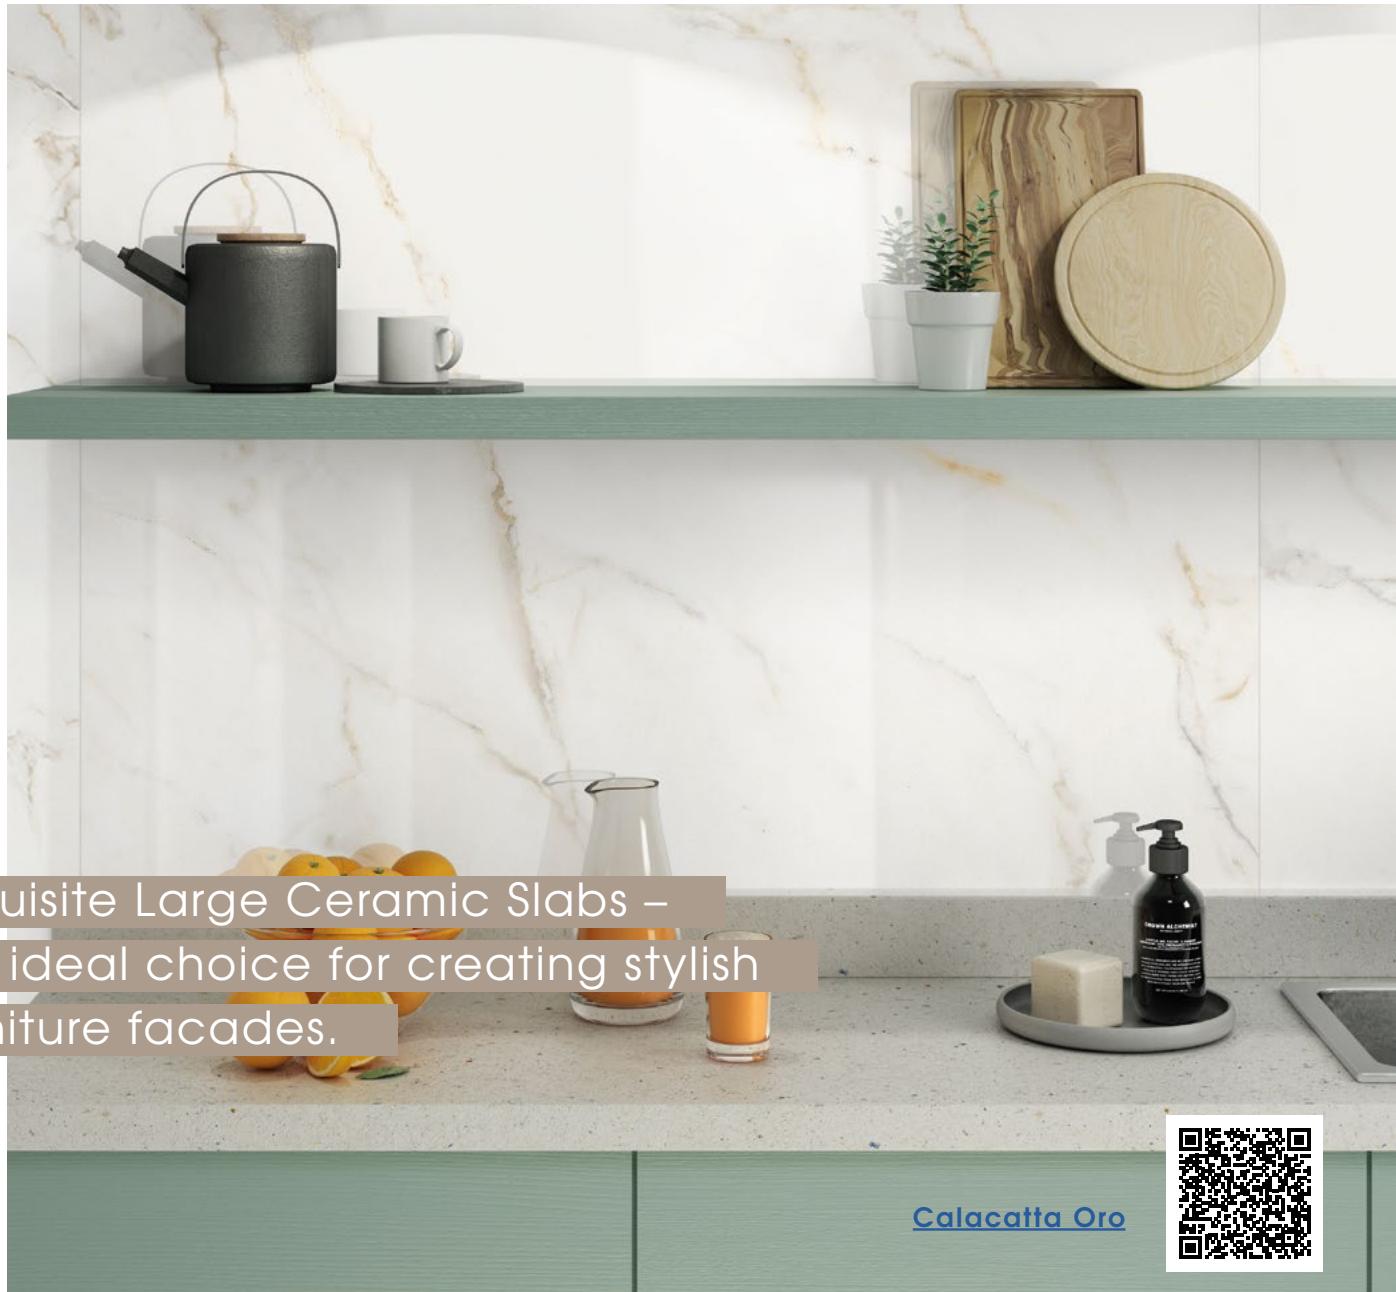

Our large ceramic slabs offerings are perfect for talented designers and discerning clients who seek the best for their space.

KERALINI LARGE CERAMIC SLAB - A HIGHLY POPULAR MATERIAL ACROSS EUROPE FOR ENHANCING WALLS AND FLOORS, CRAFTING INTERIOR PARTITIONS, DESIGNING ELEGANT WINDOWSILLS, STAIRS, STYLISH KITCHEN COUNTERTOPS, ISLANDS, AND EVEN FOR CREATING STUNNING EXTERIOR FACADES.

Keralini's materials and products are the perfect choice for transforming your design vision into reality, whether it's for interior spaces or exterior settings in restaurants, hotels, entertainment centers, and various commercial venues.

The brand's exclusive offerings meet all essential criteria, verified through independent international certification, guaranteeing flawless material quality, large slab sizes, and outstanding technical characteristics.

With the expertise of specialists and refined high-tech production, Keralini slabs exhibit perfectly smooth surfaces and impeccable quality, maintaining their excellence throughout the material processing journey.

The material's excellent performance characteristics make it suitable for use in various climatic conditions.

With its hygienic, eco-friendly, and highly durable properties, large ceramic slabs outperform all other materials, making Keralini products the top choice for creating a distinctive interior style.

Large ceramic slabs are available in optimal sizes:

- 3200x1600x6 mm
- 3200x1600x12 mm
- 3200x1600x20 mm

The Keralini collection includes decors created using the unique FullBody 3D technology. Thanks to this technology, veined decors feature a pattern that runs through the entire body of the material, allowing kitchen countertops to maintain a consistent design along the edges. Keralini FullBody 3D slabs are an ideal choice for surfaces exposed to intensive use.

ENJOY THE ADVANTAGES

**of your preferences
and possibilities with Keralini**

Keralini large ceramic slabs come in a modern design palette, blending innovative technologies with the finest Italian quality traditions. With marble-like matte and polished textures, along with various decorative options, the brand's collections offer everything you need to bring any unique design project to life.

Keralini large ceramic slabs are designed for individuals and brands who appreciate experimentation and self-expression. They elevate the space, making it exceptional and prestigious for those who value quality and exclusivity.

Resistant to chemicals, wear, temperature changes, fireproof, and eco-friendly - large ceramic slabs maintain their flawless appearance, fulfilling your expectations for a functional and safe environment.
